## Professional Experience

---

Currently working as Web Developer with **Allocate software India Pvt Ltd, Pune** since **Dec 2023**  
Till date

## Education

---

Completed Bachelor of Technology from Dbatu University with 8.64 CGPA.

## Project

---

**Project Name: E-Commerce Website Automation**

**Role: QA Automation Tester**

**Tools: Selenium, TestNG, Maven, Java, POM**

**Description:**

- Automated core features of an e-commerce website using Selenium with Java and TestNG. Built a scalable framework using the Page Object Model.
- Executed tests for login, product search, add to cart, and checkout functionalities.
- Used Maven for build management and TestNG for test grouping and reporting.
- Created and maintained reusable test scripts using Selenium WebDriver.
- Detected, logged, and tracked bugs; verified fixes through re-testing.

**Project Name: Build Smart - Skill up to get Smart**

**Role: Frontend Developer**

**Tools: React JS, MySQL, Bootstrap, Figma, JavaScript**

**Description:**

- Designed and developed user interfaces using HTML, CSS, and JavaScript.
- Collaborated with UI/UX designers and backend developers for seamless integration.
- Build Smart is targeted for students and staff, offering tools like code browsers, GATE aptitude test links, and reference videos.
- Developed reusable components, assisted in front-end maintenance, and enhanced UI usability.
